

PRESIDENT M'KINLEY NOT A CANDIDATE FOR THIRD TERM.

Issues a Statement Giving His Cabinet Advised the President to Senator Hanna Says That it Reasons For His Position Make a Statement to the Public. Came Out Just As He Expected.

WASHINGTON, June 11.—The following statement has been given out at the White House.

"I regret that the suggestion of a third term has been made. I doubt whether I am called upon to give it notice. But there are now questions of the gravest importance before the administration and the country and their just consideration should not be prejudiced in the public mind by even the suspicion of the thought of a third term.

"In view, therefore, of the reiteration of the suggestion of it, I will say now, once for all, expressing a long settled conviction, that I not only am not and will not, be a candidate for a third term, but would not accept a nomination for it if it were tendered me.

"My only ambition is to serve through my second term to the acceptance of my countrymen, whose generous confidence I so deeply appreciate, and then, with them, to do my duty in the ranks of private citizenship.

WILLIAM M'KINLEY.

"Executive Mansion, Washington, D. C., June 10, 1901."

WASHINGTON, June 11.—President McKinley's official announcement disposing of the third term idea proposed by some of his advisers created no great surprise among his friends, who have known of his deep convictions on the subject.

When Senator Depew's suggestion ten days ago that the President should be re-elected for a third term began to be seriously discussed and when several of the friends felt called upon to endorse the idea, the President decided that the public mind should be instantly cleared even the suspicion that he was seeking to break down the precedents of the past by becoming a candidate for another term.

He broached the subject to Secretary Long late yesterday afternoon. He told him that he believed an announcement

at the very inception of the discussion would be wise and just might officially inform the members of the Cabinet, who had informally been called together, of his decision. It met with hearty approval.

There was unanimous concurrence in the belief that discussion of a third term for the President, if allowed to go on, would not only place the President in a false light before the country, but would arouse antagonism and would badly embarrass the administration in the solution of the great questions before it.

The brief announcement which the President had prepared was given out by Secretary Cortelyou at noon today.

SENATOR HANNA GIVES

HIS VIEWS ON SUBJECT.

CLEVELAND, O., June 11.—"It is just

what I expected the President would say, if he said anything at all on the subject," was the comment of Senator Hanna today when he read President McKinley's statement in reference to a third term.

"I have never exchanged one word with the President concerning the matter," he continued, "and have considered all the talk bearing on the matter as premature. According to my judgment, it is too early to discuss Presidential candidates for the next term."

Asked if he was in favor of maintaining the precedent established by Washington in regard to the number of years the President should hold office, Senator Hanna said:

"I don't think the precedent established by Washington has much to do with the matter. But there is no doubt a strong sentiment among the people against such a proposition."

CALIFORNIA JOCKEY CLUB GETS NEW LEASE OF THE RACE TRACK.

Ten Years More, With an Option of Seven Years Additional—The Rent is \$500 a Month—Complete Terms of the Document On File.

President Thomas H. Williams of the California Jockey Club has renewed his lease of the Emeryville race track for ten years, with an option of seven years more after that time has expired. The lease was filed today in the office of the County Recorder. According to its terms the owner, Mrs. Margaret A. Mee of San Francisco, agrees to lease the property to the California Jockey Club at a monthly rental of \$500, payable in advance, upon the 17th day of every month, from April 17 of this year. The present lease is a renewal of the original, which was executed in 1896.

The California Jockey Club agreed not to sublet or assign the property to any other person, excepting an assignment to the Mercantile Trust Company for \$400,000 to pay its indebtedness to the San Francisco Jockey Club.

It is also agreed that no saloons, stores, restaurants or hotels, besides those at present conducted at the grand stand, shall be kept on the premises.

The California Jockey Club further agrees to insure its buildings for not less than \$60,000 and not more than \$80,000.

In case of fire the insurance, at the option of the lessee and lessor, is to go toward the rebuilding of the buildings. In case valid laws are enacted prohibiting horse racing it is agreed that the club may conduct on the premises any other form of amusement it sees fit. The taxes on the property are to be paid by the California Jockey Club. The contract is signed by President Thomas H. Williams, Secretary R. B. Mifflin, and Mrs. Margaret A. Mee.

POPE IS ALL RIGHT
AND TAKES A RIDE.

ROME, June 11.—The statement circulated in the United States shows that the annual reports of the Pontiff's illness, critical condition and fainting fits have already commenced and as the summer wears on, no doubt, as usual, will be reported at death's door. The truth is, however, that the Pope is in very good health, is enjoying his daily drive and walk, and the heavy cares of state seem to bear lightly on his old age.

Desperate Efforts Are Being Made to Try and Rescue the Miners.

RESCUERS ARE BLOWN
UP IN THE MINE.

WEST NEWTON, Pa., June 11.—Not a practical miner in this district believes that one of the seventeen men entombed in the Port Royal mine by the explosion last night is still alive. There is no fire in the mine, to judge from appearances at the pit-mouth, but the force of the explosion was so great that none of the men, so the miners say, could have survived the shock. The correct list of the dead is as follows:

W. A. McCUNE, Superintendent; injured; four children.

JOHN KECK, mine boss; married; three children.

WILLIAM ALLISON, Superintendent; West Newton; married; four children.

DANIEL ALSERP, mine boss.

William McCune was Superintendent of the Port Royal, comprising five mines. He was a large stockholder in the Pittsburgh Coal Company.

William Allison was a second cousin of President McKinley.

At 9:05 A. M. today an inspection party entered the mine, through the shaft on the Baltimore & Ohio side of the river. It is their purpose to penetrate as far as possible to locate the dead bodies. The fans in both shafts were started up to clear the mine of smoke, fire-damp and the after-damp, resulting from the explosion last night.

WOODMEN MEET IN ST. PAUL.

Reports at the Session Show a Large Increase in the Membership.

ST. PAUL, Minn., June 11.—The twelfth biennial camp, or national convention of the Modern Woodmen of America was called to order today at 10 o'clock in the Auditorium, an immense crowd filling the great hall. Welcomes and responses and preliminary routine business in the appointment of committees took up the morning session.

The reports show a net gain of 211,370 in new members since the meeting of two years ago, carrying a total insurance of \$348,500,000. During the two years 3,352 new local lodges were organized.

The report of Major C. W. Hawes, grand secretary, shows that up to June 1st the society had paid a total of 11,340 death claims, the aggregate disbursements to such purpose being \$22,000,000.

The receipts of the society from all sources during the term aggregate \$5,035,930. Of this amount \$7,770,958 was received in the mortality fund and \$1,064,942 in the general fund.

BOTH SIDES ARE FIRM.

The Striking Butchers Hold a Meeting and Issue a Formal Statement.

WHOLESALEERS WILL NOT
MAKE CONCESSIONS.

Determination seems to be the watchword of both the wholesale butchers and the members of the Butchers' Union in the strike which was inaugurated yesterday morning, and the situation remains practically unchanged. "We are just as determined as we were at 6 o'clock yesterday morning," said Secretary Douglas of the Butchers' Union today.

"The wholesale men will stand together," said Irving C. Lewis, vice-president of Grayson, Owen & Company.

The matter is therefore at a standstill, both sides awaiting developments and each side momentarily expecting some countermove on the part of its opponent. All the shops were open again today and the wholesale men at the stockyards found a means of delivering meat by employing non-union drivers. The proprietors of both slaughter houses and shops worked again today and a number of non-union men appeared to assist.

Situation at Becker's.

During the day the sidewalk in front of Fred Becker's market on Washington street between Eighth and Ninth streets was crowded but the doors were open and Becker had secured about a dozen men to assist him in cutting up his meat. Becker wore an apron again, but he was not compelled to work so hard as he did yesterday.

"The wholesale men are as firm as ever," said Becker, "and I am satisfied that it will be a fight to the finish. At any rate, I am again boss of my own shop. Three weeks ago I was boss of seventy-five men; lately I have had seventy-five busses. I don't know where all the new men come from, but they are dropping in one and two at a time and I am convinced that I will soon have a new crew. All the old men were paid yesterday, so they have no more ties upon the place."

"I expect twenty-five more men from Los Angeles this afternoon, and when

DEMAND REMOVAL
OF A JUDGE.

Attorneys in Honolulu Ask That Judge Humphreys Be Retired at Once.

HONOLULU, June 5, via San Francisco, June 11.—The Hawaiian Bar Association held a meeting on the 29th ultimo and by a vote of 37 to 7 adopted a resolution asking for the removal of First Circuit Judge Humphreys. The resolution adopted states that the Judge has been conducting a partisan newspaper; that he has continued to be a political leader; that his conduct towards members of the bar has been such as to destroy their confidence in his administration of justice; that he be removed. A committee consisting of W. L. Stanley, J. T. de Bolt, L. A. Andrews, Cecil Brown and George A. Davis was appointed to take depositions and submit the case to Washington, with the request of the Bar Association that Humphreys be removed.

SHOCKING TRAGEDY ON HIGH SEAS.

Desperate Chinese Murders the Captain and His Men Corner the Mate of the Vessel and Murderer and Steam Him to Death in the Galley.

HONOLULU, T. H., June 5, via San Francisco, June 11.—Details of the most shocking tragedy at sea that has been reported here since the famous mutiny on the bark Hesper some years ago were brought last Sunday by the American schooner J. A. Campbell, Captain A. E. Smith, from Port Blakeley, with lumber.

MATE WAS MURDERED. The mate of the vessel, Adam Huber, was murdered by the Chinese cook, and the latter, after terrorizing the whole crew by holding possession of the galley for nearly twenty-four hours, during which it was every moment feared that he would set fire to the vessel, was subjected to a steaming process to bring him out, but he shot himself rather than come forth and be captured, and when the crew finally entered the galley they found the Chinaman's body literally cooked by steam.

The Chinese Fired. The trouble occurred on May 5th, when the vessel was seven days out on her journey. The members of the crew state that they do not know the cause of the quarrel that finally ended in the double tragedy. Huber entered the galley where the cook, Ah Kee, was doing his work. A moment later, as he came out, Ah Kee fired at him twice with a revolver. The mate fell near the companionway and died almost before he could be removed to the cabin.

Gave the Crew Arms. The cook retreated into the galley

Night Settled on Schooner. Night settled down and the schooner continued on her course, with the galley in possession of the murderer and the entire crew armed and watching for him. There was a quantity of kerosene where the murderer was and it was feared that he would set fire to the ship.

Steam the Murderer. The watch continued all night and next morning it was decided as a last resort to steam the murderer out of his unapproachable refuge. The donkey engine was fired and the necessary connections were made and a force of steam was turned into the galley where the Chinaman lay in wait. The crew heard a pistol shot while they were at work, but paid no attention to it. Steam was turned into the galley and the force was kept up for an hour. Then the men entered the cook's quarters.

Chinese Shot and Cooked. They found Ah Kee seated in a chair with a bullet wound through his head and a revolver where it had dropped from his hand. The steam had fairly cooked his flesh so that the body came apart when the men removed it.

On the afternoon of the 10th the bodies of the victim and murderer were buried at sea, funeral services being conducted by Mrs. Captain Smith.

HONOLULU, June 5, via San Francisco, June 11.—The court of claims created by the recent Legislature to hear claims for losses caused by the great fire that grew out of an order by the Board of Health to destroy a dwelling in which a plague case had occurred, has been in session a little over a week and already has it started much more business than it can attend to in its allotted term of six months. CONGRESSMEN TO CONSIDER FACTS. MAKES AN APPEAL TO SAVE HER SON

Getting Ready to Meet Members of the River and Harbor Committee.

It has not yet been definitely decided what day the Congressional Committee on Rivers and Harbors will visit this city. It is known, however, that they will reach San Francisco from the South one week from today and that they will remain there three days, in the meantime visiting harbors and waterfronts in this vicinity. One of these three days will be assigned to Oakland.

Congressman Metcalf has been assured that the big transport tug Slocum, which bears President McKinley to and from the launching of the Ohio, will be at the command of the local committee and the distinguished visitors on the day of their visit to Oakland Harbor and waterfront.

Congressmen Metcalf and Secretary Fred M. Campbell are preparing a statistical report showing the business, commerce, condition, needs and possibilities of the harbor both for publication as also to lay before the committee and send with them when they return to Washington. These showings will be accompanied by maps, drawings and photographic views of the harbor and its varied industries on either side.

A showing somewhat of the same kind is being made by the Board of Trade committee, which will also be supplemented by drawings and verbal explanations.

ARRAIGNED IN COURT FOR NOT SUPPORTING CHILD.

James Scott, a well known longshoreman, was arraigned in the Police Court dock this morning on a charge of failure to provide for his 2-year-old child.

Mrs. Annie Washburn, his accuser, averred that Scott had left his child with her to look after and that he had agreed to pay her \$3 per week for caring for the little one; but that he had failed to pay for the past five weeks.

Scott stated under oath that his wife has been and is sick and under treatment at a local hospital; and that he too, had been ill and out of work. He expressed a willingness to pay Mrs. Washburn just as soon as he could find work and earn something.

TESTIMONY IS GIVEN AGAINST W. A. BRANDES.

Judge Ogden this morning overruled Attorney Pick's objection to the introduction of the testimony given by W. A. Brandes at his first trial. The ruling was a point gained in favor of the prosecution. In his former testimony Brandes testified that he had not beaten his daughter and that he did not know that her body was marked and bruised until he saw it at the Morgue at the time of the inquest.

To refute this testimony, the prosecution at the present trial has introduced evidence to show that Brandes did, on at least two occasions, beat his daughter.

Wm. Walsh's Capable Employees are Rewarded

M. J. O'Dea and David Boyle Continuing the Success of the Junction Cash Grocery Store.

The Junction Cash Grocery was established by William Walsh in 1877. It has been one of the most pronounced successes in the business world of Oakland. Mr. Walsh has taken into partnership two of the finest young business men in this city. The original success continues. We must make way for new goods. Everything, in season, will be new, as it has always been, and for that reason, for the next thirty days, everything on hand will be sold at lowest reasonable rates. Standard groceries and the purest of Irish and American whiskeys, for family use, will always be at the command of our patrons at lowest possible prices.

M'CLOUD MUST PAY HIS DEBT. NEW DEAL IN NARROW GAUGE.

Police Commissioners Give the Officer Time to Make the Payments.

New Slip and Freight Yards for the Fill at the Old Mole.

The charges against Policeman William M'Cloud, preferred by M'Cloud and M'Cloud, were fully tried and investigated today by the Board of Police Commissioners in executive session, and though the charges were found to be true, the accused officer explained that the reason he had not liquidated the debt was because he was unable to do so on a last of money.

The work is already planned. The completion of the enterprise, however, is to be pushed as rapidly as possible by a large force of men.

When this slip is ready for use, it will cause a radical change in the location of the switching yards of the Narrow Gauge system in Alameda. Those yards are now located at what is known as Alameda Point where the original depot was built before the line was extended on a trestle to deep water.

There were no other witnesses, and even the Chief of Police was not present. The Commissioners, however, were in executive session nearly two hours, and finally when they emerged the following resolution was adopted, which speaks for itself:

"Whereas, this Board has investigated the charges preferred against Officer William M'Cloud by M'Cloud and M'Cloud; and

"Whereas, the said William M'Cloud has acknowledged the indebtedness to said M'Cloud and M'Cloud, specified in said charges, and has presented to this Board satisfactory reasons for delay in the payment of said indebtedness, and has promised to pay the same in full in monthly installments within six months from the date hereof; therefore be it

"Resolved, That further investigation of the charge set forth in the complaint of the said M'Cloud and M'Cloud herein filed, be deferred pending the payment of said indebtedness as agreed to."

M'Cloud remarked that he thanked the gentlemen for their courtesy and bowed out of the room.

and two miners, three of a rescuing party that went into the mine to bring out the inmates who were entombed, were sent to the McKeen Hospital. Beveridge had both hands broken.

Steel May Be Delayed by the Big Labor Strikes in the Distant East.

A searching party composed of Superintendent William McCune and nine others went down shaft No. 2. Just before they were lowered the bell was rung from the foot of the shaft. The cage was already down and it was brought up with one of the men, Delter, on it. The rescuing party then went down. Nothing was heard of them, and in an hour another rescuing force, led by James Bailey and William Williams, five bosses, were let down the shaft. They had groped their way about 200 feet when two explosions were heard in rapid succession. The shaft lamps in the hands of Bailey and Williams were blown fifty feet away and they themselves were thrown violently to the ground. There was no response to their calls for their comrades and both men hurried back to the shaft and were drawn up in the cage. From then until 9:45 a. m. no others went down the shaft, as it would have meant certain death from the afterdamp.

Found a Body.

At 10 a. m. the body of Taylor Gunn, a miner, was brought to the surface by the party headed by Inspector Callaghan. A big crowd surrounded the mouth of the shaft when the corpse was brought out and the scene was pitiful in the extreme. Many women were there looking for their husbands, fathers and brothers and they wildly appealed for the rescuers to save their loved ones.

Rescuers Injured.

The last rescue party had been in the mine about an hour when the muffled report of another explosion was heard. A dozen men volunteered to go down to endeavor to save the rescuing party, but their services were not needed, as the signal to hoist the cage was given from the bottom and when it reached the surface unconscious forms were found lying on it. Fire Inspector Callaghan and Fire Boss McKee were the most dangerously hurt and they were taken to a hotel, where two physicians worked with them almost and before they could be brought back to life. So far two dead and three living men have been taken out.

HONOLULU GRAND JURY IS STILL AT WORK.

HONOLULU, June 6, via San Francisco, June 11.—The Grand Jury, which is investigating the charges of bribery in the Legislature has submitted a partial report to Judge Humphreys, but as a further report is coming, the report has been filed with the court and not made public. Today Judge Humphreys gave the jury a statement, submitting to them, it is said, a new line of inquiry. The Grand Jury has made a very rapid inquiry into the matter, having examined fifty or more witnesses.

MEAL-PROVIDERS RAISE PRICES. Result of the Demands of Cooks and the Waiters' Union.

On and after tomorrow, the mortals who subsist by dining or supping at restaurants will be taxed an extra price for every dish which they may order to satisfy their appetites.

The raise in prices will be determined at a meeting of the Hotel and Restaurant Keepers' Protective Association which is to be held tonight in the Crellin Hotel.

The increase in the prices has been decided upon by the association as a means of self-protection because of the increased expense caused by higher wages paid to cooks and waiters and allowing the members of these crafts one day off each week, concessions made on the demand of the Cooks' and Waiters' Union, which was established a few weeks ago.

SCHEDULE.

The schedule of new prices to be adopted is only partially prepared and will not be ready until immediately before the meeting in question. It will be on a graded scale, the prices being different according to the class of hotel, full-priced restaurant, and restaurants where workmen and others of moderate means take their meals.

In some places prices have already gone up, but the increase is immaterial.

ADVISABILITY.

There was some question as to the advisability of increasing rates in the French and 15-cent restaurants, but it is now understood that this has been overcome and that where it may not be deemed advisable to charge 5 cents for each dish in a 15-cent house, soup and tea, coffee, beer or whisky, which have heretofore been included in the meal, will be charged for extra.

With respect to mutton, veal and pork, which are sometimes difficult to secure, there will be even a greater increase than that of 5 cents.

The firms and concerns represented in the Hotel and Restaurant Keepers' Association comprise Barnum's, Maison de l'Opera, Saddle Rock, Gas Kitchen, Merrick's, Palace, C. P. Fish, Maison Piedmont, Liberty, Philadelphia, Postoffice, Louisville, Louvre, Eureka, Crellin, Metropole, San Carlo, San Pablo, Market Street, Postoffice in West Oakland, and a few others.

BOTH SIDES ARE FIRM.

they arrive I will begin to feel easier. In regard to my stock I have plenty of cattle and hogs, and today John Stewart delivered fifty sheep at my shop, so I am well supplied. With my refrigerators at hand I have no fear of the meat spoiling."

Union Men Work.

The sensation of the day among the strikers was the returning to work of three union men, who had walked out of the City Hall Market on San Pablo avenue. The men, James Dunn, J. Oberg and C. Nash went out with the others yesterday morning, but today they applied to the proprietor, O'Connell, to be reinstated. O'Connell agreed to take them back and they went to work immediately, to the disgust of the strikers.

At Steinbeck's shop on Telegraph avenue several non-union men have gone to work. Steinbeck has taken out his union card and has posted a notice on the door to the effect that the shop will not be closed hereafter until 6 o'clock in the evenings.

All the shops have gone back to the old hours, but few of them have removed the union cards. Becker stated today that he did not remove the cards in his shop because they were not his property, having been placed there by the union.

Cards Remain.

That the union has taken no action in regard to the cards has caused some speculation, since the shops are no longer under union control. Secretary Douglas, however, stated that the union did not desire to rush matters and would wait to see if the wholesalers would not give in. The union held a long secret session last evening and sessions were held at intervals during today, but no action was taken in regard to the cards. It was also decided not to ask the cooks and waiters to refuse to handle non-union meat except as a last resort.

After the meeting this morning the Press Committee, composed of J. A. Harriman, H. S. Kohler and C. A. Vogel, made the following statement:

Strikers' Statement.

"We wish to contradict some misrepresentations made by Becker. He said that he put in a large supply of meat because we promised to stay by him. We did make that promise when he signed the union agreement, but we promised with the proviso that the union would not call us out on other conditions. This strike is the result of a combination between the wholesale men and a few large retailers, such as Becker, Newhall, Steinbeck and Combs & Fisher of Alameda. That Becker told us such a large stock of meat goes to prove it is that; of Becker of the Midland Market, Alameda; Beckstein of the California Market, Alameda; Dick Fisher, Alameda; W. H. Soy, Grand Fork Market, Alameda; and Beckintown of San Francisco, all boss butchers, are cutting meat for Becker. The idea of the combination was to force the small dealers out of business by forcing out their union cards and we stood by the latter by calling a general strike."

In regard to hours the union demands were that the men should work from 7 a. m. till 5 p. m. The bosses suggested that we go to work at 6 a. m. and we accepted the proposition, which was their own. Both sides accepted it and the smaller shops were pleased with the new schedule, but the large shops tried to back out of it."

Wholesalers Consider.

DIED.

LEFEVRE—In San Francisco, June 10, 1901, Henry B. Lefevre son of Mrs. Clara J. Lefevre and the late Dr. Alfred Lefevre and brother of Charles A. Lefevre and Mrs. J. M. Walsh, a native of Oakland, Cal., aged 25 years and 10 days.

Friends and acquaintances are respectfully invited to attend the funeral WEDNESDAY at 1:30 o'clock from the family residence, 1829 Mason street, San Francisco. Interment private.

CREMATION.

The Odd Fellows' Cemetery, San Francisco. It has expended nearly \$200,000 on buildings, plant and grounds. Has five furnaces. A full stock of stockholders. It does not divide profits. It aims to make its receipts equal expenditures. All profits are expended on the care of its property and the perfection of its works.

Prices for cremation are: Infants under ten, \$70; ten to fifteen, \$80; members of societies and associations and their families, \$20; all others, \$30; which prices include a copper receptacle for the ashes, and the use of the chapel and organ. As soon as business permits, charges will be reduced. A proposition to lower the cost of cremation to \$20 is under consideration. A special arrangement is now nearly perfected so that a body sent from any place in the State of California will be cremated at a total expense not to exceed the above rates.

FOR THE ACCUMULATION OF PROFIT, but in the promotion of funeral reform and for the benefit of the widow and orphan. If necessary for the cause, we will place agents in Oakland, Alameda and San Jose, to care for the poor.

forward. The work of excavating
down to the required depth will be
completed within eight or ten days af-

the carpenters in getting in the cen-

piers. The work will be done in the
long wall which will be 200 feet

roadway. The span of the bridge is to
be eighty feet. Since the work com-

Considerable trouble has been caused
by the caving in of the banks, which
greatly delayed the progress of the
work. As soon as the forms are up,
work will be commenced on the con-
crete, the material for which is all
ready on the grounds. It consists of

Berkeley Trustees Will Go After
Men Who Are Violating
the Law.

BERKELEY, June 11.—Determined
that the law which prohibits the sell-
ing of spirituous liquors within a mile
of the University of California shall
be observed, Trustee Ryder presented
a plan at last evening's session of the
Board of Trustees which is destined to
close the business places of all those
who are breaking the law.
Ryder's measure provides that all
those who are in business shall be
compelled to take out a license. It is
further proposed that if any man be
caught violating the liquor laws his
license shall be permanently revoked.

The following charges were made,
when the resolution was opened for
discussion by Trustee Turner: "There
are at the present time more cigar
dealers within the mile limit who are
doing more of a business in whiskey
than they are in cigars."
The matter was finally referred to a
special committee consisting of Trust-
ees Rickard, Town Attorney Hayne
and Marshal Kerns. They will report
at a special meeting to be held Friday
evening. It was recommended that
the guarantee bond of the Pacific Im-

WATCH FOR OWNER.

BERKELEY, June 11.—Last evening
burglars entered the residence of Mrs.
Tessie Shipman at 2123 Channing way.
They secured a gold watch which was
trapped, the thieves being frightened
by the barking of a pet dog which was
in the house.
Mrs. Shipman and her little son were
alone at the time of the robbery.

evening the following business was
transacted:
The Berkeley Daily Gazette was
awarded the contract for the town print-
ing at 50 cents per square for the first

sertions.
Believing that the town should not be
held responsible for the bills contracted
during the quarantine which was main-
tained at the Institute for the Deaf,
Dumb and Blind, President Marton was
appointed to see if the State Board of
Health cannot be made to pay the same.
Upon recommendation of the Finance
Committee, the following bills were or-
dered paid: Berkeley Electric Light

POOR OLD MOSE IS
AGAIN IN THE BASTILE.

After an absence of several months,
Mose Allback, familiarly known as the
"Moses of the city's Bastille," again
turned up and graced the Police Court
dock this morning in his old familiar
way.
"Mose," called out Police Court Clerk
Hennessy, "you are charged with
being drunk. What's your plea?"
And then Mose, in his old familiar
way, explained the reason of his ex-
hibition. "I have been away for
some time," he said, "and have been
working all the while I was absent.
Yesterday a longing for dear old Oak-
land seized me, and I drifted over here,
and, of course, your honor knows the
rest. Of course, I'm sorry. It's all
true, but it's said it's true."
"Six dollars or three days," said
Judge Smith with a sympathetic sigh.
And the hearts of the on-lookers at
the City Prison were made glad, be-
cause the windows have needed a
cleaning superintendent for some days.
Mose has been arrested 334 times for
being drunk.

Night Was Hor Teror.

"I would cough nearly all night long,"
writes Mrs. Chas. Applegate of Alexan-
dria, Ind., "and could hardly get any
sleep. I had consumption so bad that if
I walked a block I would cough fright-
fully and spit blood, but when all other
medicines failed, three \$1.00 bottles of Dr.
King's New Discovery wholly cured me
and I gained 38 pounds. It's absolutely
guaranteed to cure Coughs, Colds, La-
Grippe, Bronchitis and all Throat and
Lung Troubles. Price 50c and \$1.00. Trial
bottles free at Osgood Bros' drug store,

PRESIDENT M'KINLEY NOT A CANDIDATE FOR THIRD TERM.

Issues a Statement Giving His Reasons For His Position * Cabinet Advised the President to * Senator Hanna Says That it *
* Make a Statement to * Came Out Just As He *
* in the Matter. * the Public. * Expected. *

WASHINGTON, June 11--The following statement has been given out at the White House.

"I regret that the suggestion of a third term has been made. I doubt whether I am called upon to give it notice. But there are now questions of the gravest importance before the administration and the country and their just consideration should not be prejudiced in the public mind by even the suspicion of the thought of a third term.

"In view, therefore, of the reiteration of the suggestion of it, I will say now, once for all, expressing a long settled conviction, that I not only am not and will not, be a candidate for a third term, but would not accept a nomination for it if it were tendered me.

"My only ambition is to serve through my second term to the acceptance of my countrymen, whose generous confidence I so deeply appreciate, and then, with them, to do my duty in the ranks of private citizenship.

"WILLIAM M'KINLEY.

"Executive Mansion, Washington, D. C., June 10, 1901."

WASHINGTON, June 11--President McKinley's official announcement, disposing of the third term idea proposed by some of his admirers, created no great surprise among his friends, who have known of his deep convictions on the subject.

When Senator Depew's suggestion ten days ago that the President should be re-elected for a third term began to be seriously discussed and when several of the friends felt called upon to endorse the idea, the President decided that the public mind should be instantly cleared even the suspicion that he was seeking to break down the precedents of the past by becoming a candidate for another term.

He breached the subject to Secretary Long late yesterday afternoon. He told him that he believed an announcement

at the very inception of the discussion would be wise and last night officially informed the members of the Cabinet, who had informally been called together, of his decision. It met with hearty approval.

There was unanimous concurrence in the belief that discussion of a third term for the President, if allowed to go on, would not only place the President in a false light before the country, but would arouse antagonism and would badly embarrass the administration in the solution of the great questions before it.

The brief announcement which the President had prepared was given out by Secretary Cortelyou at noon today.

SENATOR HANNA GIVES

HIS VIEWS ON SUBJECT.

CLEVELAND, O., June 11--"It is just

what I expected the President would say, if he said anything at all on the subject," was the comment of Senator Hanna today when he read President McKinley's statement in reference to a third term.

"I have never exchanged one word with the President concerning the matter," he continued, "and have considered all the talk bearing on the matter as premature. According to my judgment, it is too early to discuss Presidential candidates for the next term."

Asked if he was in favor of maintaining the precedent established by Washington in regard to the number of years the President should hold office, Senator Hanna said:

"I don't think the precedent established by Washington has much to do with the matter. But there is no doubt a strong sentiment among the people against such a proposition."

CALIFORNIA JOCKEY CLUB GETS NEW LEASE OF THE RACE TRACK.

Ten Years More, With an Option of Seven Years Additional--The Rent is \$500 a Month--Complete Terms of the Document On File.

President Thomas H. Williams of the California Jockey Club has renewed his lease of the Emeryville race track for ten years, with an option of seven years more after that time has expired.

The lease was filed today in the office of the County Recorder. According to its terms the owner, Mrs. Margaret A. Meo of San Francisco, agrees to lease the property to the California Jockey Club at a monthly rental of \$500, payable in advance, upon the 17th day of every month, from April 17 of this year. The present lease is a renewal of the original, which was executed in 1886.

The California Jockey Club agrees not to sublet or assign the property to any other person, excepting an assignment to the Mercantile Trust Company for \$400,000, to pay its indebtedness to the San Francisco Jockey Club.

It is also agreed that no saloons, stores, restaurants or hotels, besides those at present conducted at the grand stand, shall be kept on the premises.

The California Jockey Club further agrees to insure its buildings for not less than \$60,000 and not more than \$80,000.

In case of fire the insurance, at the option of the lessee and lessor, is to go toward the rebuilding of the buildings. In case valid laws are enacted prohibiting horse racing it is agreed that the club may conduct on the premises any other form of amusement it sees fit. The taxes on the property are to be paid by the California Jockey Club. The contract is signed by President Thomas H. Williams, Secretary R. B. Milroy, and Mrs. Margaret A. Meo.

ROME, June 11--The statement circulated in the United States shows that the annual reports of the Pontiff's illness, critical condition and fainting fits have already commenced and as the summer wanes he, no doubt, as usual, will be reported at death's door. The truth is, however, that the Pope is in very good health, is enjoying his daily drive and walk, and the heavy cares of State seem to bear lightly on his old age.

BOTH SIDES ARE FIRM.

The Striking Butchers Hold a Meeting and Issue a Formal Statement.

WHOLESALEERS WILL NOT MAKE CONCESSIONS.

Determination seems to be the watchword of both the wholesale butchers and the members of the Butchers' Union in the strike which was inaugurated yesterday morning, and the situation remains practically unchanged.

"We are just as determined as we were at 6 o'clock yesterday morning," said Secretary Douglas of the Butchers' Union today.

"The wholesale men will stand together," said Irving C. Lewis, vice-president of Grayson, Owen & Company.

The matter is therefore at a standstill, both sides awaiting developments and each side momentarily expecting some countermove on the part of its opponent. All the shops were open again today and the wholesale men at the stockyards found a means of delivering meat by employing non-union drivers.

The proprietors of both slaughter houses and shops worked again today and a number of non-union men appeared to assist.

Situation at Becker's.

During the day the sidewalk in front of Fred Becker's market on Washington street between Eighth and Ninth streets was crowded but the doors were open and Becker had secured about a dozen men to assist him in cutting up his meat. Becker wore an apron again, but he was not compelled to work so hard as he did yesterday.

"The wholesale men are as firm as ever," said Becker, "and I am satisfied that it will be a fight to the finish. At any rate, I am again boss of my own shop. Three weeks ago I was boss of seventy-five men; lately I have had seventy-five bosses. I don't know where all the new men come from, but they are dropping in one and two at a time and I am convinced that I will soon have a new crew. All the old men were paid yesterday, so they have no more ties upon the place."

"I expect twenty-five more men from Los Angeles this afternoon, and when

HONOLULU, June 5, via San Francisco, June 11--The Hawaiian Bar Association held a meeting on the 29th ultimo and by a vote of 37 to 7 adopted a resolution asking for the removal of First Circuit Judge Humphreys. A committee consisting of W. L. Stanley, J. T. de Bolt, L. A. Andrews, Cecil Brown and George A. Davis was appointed to take depositions and submit the case to Washington, with the request of the Bar Association that Humphreys be removed.

SHOCKING TRAGEDY ON HIGH SEAS.

Desperate Chinese Murders the Captain and His Men Corner the

Mate of the Vessel and * Murderer and Steam Him *
* Declares War on * to Death in the *
* the Crew. * Galley. *

HONOLULU, T. H., June 5, via San Francisco June 11--Details of the most shocking tragedy at sea that has been reported here since the famous mutiny on the bark Hesper some years ago were brought last Sunday by the American schooner J. A. Campbell, Captain A. E. Smith, from Port Blakeley, with lumber.

MATE WAS MURDERED.

The mate of the vessel, Adam Huber, was murdered by the Chinese cook, and the latter, after terrorizing the whole crew by holding possession of the galley for nearly twenty-four hours, during which it was every moment feared that he would set fire to the vessel, was subjected to a steaming process to bring him out, but he shot himself rather than come forth and be captured, and when the crew finally entered the galley they found the Chinaman's body literally cooked by steam.

The Chinese Fired.

The trouble occurred on May 30th, when the vessel was seven days out on her journey. The members of the crew state that they do not know the cause of the quarrel that finally ended in the double tragedy. Huber entered the galley where the cook, Ah Kee, was doing his work. A moment later, as he came out, Ah Kee fired at him twice with a revolver. The mate fell near the companionway and died almost before he could be removed to the cabin.

Gave the Crew Arms.

The cook retreated into the galley and fired a shot. It was impossible to enter the galley except through a very narrow space, down a ladder from the high deckload of lumber, and the Chinaman's attitude convinced all that it was certain death for anyone to attempt to make the entrance.

Captain Smith distributed arms among the crew and tried to get Ah Kee, but Kee only showed himself once.

Then the second mate covered him with a revolver and the Mongolian went back into the galley.

Night Settled on Schooner. I

Night settled down and the schooner continued on her course, with the galley in possession of the murderer and the entire crew armed and watching for him. There was a quantity of kerosene where the murderer was and it was feared that he would set fire to the ship.

Steam the Murderer.

The watch continued all night and next morning it was decided as a last resort to steam the murderer out of his unapproachable refuge. The donkey engine was fired and the necessary connections were made and a force of steam was turned into the galley where the Chinaman lay in wait. The crew heard a pistol shot while they were at work, but paid no attention to it. Steam was turned into the galley and the force was kept up for an hour. Then the men entered the cook's quarters.

Chinese Shot and Cooked.

They found Ah Kee seated in a chair with a bullet wound through his head and a revolver where it had dropped from his hand. The steam had fairly cooked his flesh so that the body came apart when the men removed it.

On the afternoon of the 10th the bodies of the victim and murderer were buried at sea, funeral services being conducted by Mrs. Captain Smith.

The cook retreated into the galley

CLAIMS FILED AT HONOLULU.

Two Thousand Demands Are Presented Against Hawaiian Government.

HONOLULU, June 5, via San Francisco, June 11--The court of claims created by the recent Legislature to hear claims for losses caused by the great fire that grew out of an order by the Board of Health to destroy a dwelling in which a plague case had occurred, has been in session a little over a week and already has, it is stated, much more business than it can attend to in its allotted term of six months. Japanese Consul Miki Saito has about 2,000 claims, with inventories taken immediately after the fire, in behalf of his countrymen. The largest single claim so far put in is for \$75,000, asked by a Chinese merchant firm, for a building and stock that went up in smoke.

The bark Harper, Captain Sietzke, arrived here fifty days from Newcastle on the 29th, with a report of two men lost at sea, both on the same day. They were W. Fredericks and John Keller.

CONGRESSMEN TO CONSIDER FACTS, MAKES AN APPEAL TO SAVE HER SON

Getting Ready to Meet Members of the River and Harbor Committee.

Mother of an Expelled Annapolis Cadet Interviews Senator Perkins.

It has not yet been definitely decided what day the Congressional Committee on Rivers and Harbors will visit this city. It is known, however, that they will reach San Francisco from the South one week from today and that they will remain there three days, in the meantime visiting harbors and waterfronts in this vicinity. One of these three days will be assigned to Oakland.

Congressman McKittrick has been assured that the big transport tug Slocum, which bore President McKinley to and from the launching of the Ohio, will be at the command of the local committee and the distinguished visitors on the day of their visit to Oakland Harbor and waterfront.

Congressman McKittrick and Secretary Fred M. Campbell are preparing a statistical report showing the business, commerce, condition, needs and possibilities of the harbor both for publication as also to lay before the committee and send with them when they return to Washington. These showings will be accompanied by maps, drawings and photographic views of the harbor and its various industries on either side.

A showing somewhat of the same kind is being made by the Board of Trade committee, which will also be supplemented by drawings and verbal explanations.

ARRAIGNED IN COURT FOR NOT SUPPORTING CHILD.

James Scott, a well known longshoreman, was arraigned in the Police Court dock this morning on a charge of failure to provide for his 2-year-old child.

Mrs. Annie Washburn, his accuser, averred that Scott had left his child with her to look after and that he had agreed to pay her \$2 per week for caring for the little one; but that he had failed to pay for the past five weeks.

Scott stated under oath that his wife has been and is sick and under treatment at a local hospital; and that he, too, had been ill and out of work. He expressed a willingness to pay Mrs. Washburn just as soon as he could find work and earn something.

Police Judge Smith accordingly continued the case for decision until July 15th, admonishing Scott to see that he pays up arrearage in the meantime.

TESTIMONY IS GIVEN AGAINST W. A. BRANDES.

Judge Ogden this morning overruled Attorney Frick's objection to the introduction of the testimony given by W. A. Brandes at his first trial. The ruling was a point gained in favor of the prosecution. In his former testimony Brandes testified that he had not beaten his daughter and that he did not know that her body was marked and bruised until he saw it at the morgue at the time of the inquest.

To refute this testimony, the prosecution at the present trial has introduced evidence to show that Brandes did on at least two occasions, beat his daughter.

NEW ELECTRIC LIGHT COMPANY ORGANIZED.

The Suburban Electric Light Company has been incorporated in this city with a capital stock of \$500,000. The sum of \$50 has been subscribed by the following directors: J. H. Lawrence, William Angus, E. P. O'Brien, Wellington Gregg, Jr., and James L. Robinson. The purpose of the corporation is to furnish electric light for illuminating in the cities and towns in this county.

The Junction Cash Grocery was established by William Walsh in 1877. It has been one of the most pronounced successes in the business world of Oakland. Mr. Walsh has taken into partnership two of the finest young business men in this city. The original success continues. We must make way for new goods. Everything, in season, will be new, as it has always been, and for that reason, for the next thirty days, everything on hand will be sold at lowest reasonable rates. Standard groceries and the purest of Irish and American whiskeys, for family use, will always be at the command of our patrons at lowest possible prices.

McCLOUD MUST PAY HIS DEBT.

Police Commissioners Give the Officer Time to Make the Payments.

The charges against Policeman William McCloud, preferred by Muir & Muir, were fully tried and investigated today by the Board of Fire and Police Commissioners in executive session, and though the charges were found to be true, the accused officer explained that the reason he had not liquidated the debt due Muir & Muir was because he had been unable to do so for lack of money.

The accused policeman contended that the original debt, \$75, had been contracted at a time when he was not connected with the department; that he had sickness and death in his family, and besides his defense in the matter of shooting one Schreiber some years ago had cost him \$1,300. These matters had kept him tight financially.

Herman Muir of the accusing firm, was present with his attorney, J. F. Street, who claimed that McCloud had defaulted along with not paying the balance due on the promissory note. Street said: "This man McCloud threatened that if we brought this matter before the Police Commissioners he would absolutely never pay it."

There were no other witnesses, and even the Chief of Police was not present. The Commissioners, however, were in executive session nearly two hours, and finally when they emerged the following resolution was adopted, which speaks for itself:

"Whereas, this Board has investigated the charges preferred against Officer William M. McCloud by Muir & Muir; and

"Whereas, the said William M. McCloud has acknowledged the indebtedness to said Muir & Muir, specified in said charge, and has presented to this Board satisfactory reasons for delay in the payment of said indebtedness, and has promised to pay the same in full in monthly installments within six months from the date hereof; therefore be it

"Resolved, That further investigation of the charges set forth in the complaint of the said Muir & Muir herein filed, be deferred pending the payment of said indebtedness as agreed."

McCloud remarked that he thanked the gentlemen for their courtesy and bowed out of the room.

Tomorrow the Commissioners meet in regular session, when something may again be heard to drop.

Under the new arrangements, this switching will be discontinued. The cars will be drawn down direct to the new slip at the Mole, and then shoved on to the ferries in waiting. This will necessitate the laying of about a dozen more tracks at that place on which trains will be made up and cut into parts, as occasion requires. This place will then be the second largest railroad yards of the Company on this side of the bay.

OAKLAND BOY IN AN ELOPEMENT.

Carl Hillinger Runs Away With a Girl Charged With Crime.

NEW YORK, June 11.—A special to the Sun from Anderson, Ind., says: Leona H. Carver, the accomplished daughter of ex-Prosecuting Attorney A. C. Carver of Alexandria, today returned to her home. Miss Carver was arrested at Chicago, Mich., last week on a charge of grand larceny. She was taken back to Ann Arbor, where she had a preliminary hearing and was bound over to the Circuit Court for trial.

Alexandria society was startled by the reported elopement of Miss Carver. There seemed to be no question that she had left her home in the company of Carl Hillinger, a young man supposed to live in Oakland, Cal. After her disappearance nothing more was heard of her until news of her arrest was received today. Miss Carver is charged with robbing the residence of Mrs. Rhode of \$30. She was elegantly dressed and presented a striking appearance when arraigned in court. Persons living in Alexandria, who are well acquainted with Miss Carver, say she is a kleptomaniac. She has been in society for three years.

NEGLECTED WIFE IS GRANTED A DIVORCE.

Eva G. Zimmerman was today granted a divorce from George B. Zimmerman on the ground of wilful neglect. The couple were married in Los Angeles, where Zimmerman's parents reside, in 1887. They have no children or property interests. He is an engineer in the employ of the Southern Pacific Company. He left his wife about five years ago and has not since contributed toward her support. Mrs. Zimmerman was represented in the case by Attorney W. J. Donovan.

CYCLONE PALYS HAVOC IN AN IOWA TOWN.

LARCHWOOD, Iowa, June 11.—A cyclone did considerable damage early this morning six miles southeast of here. Edward Ueland's house was wrecked and he and his child were carried some distance and landed in a wheat field, bruised, but otherwise uninjured.

CHINESE POLITICS ARE MIXED UP IN CASE.

WASHINGTON, June 11.—The question of the deportation of Szechin Chin, the prominent Chinese official and reformer now under arrest at San Francisco, will be determined by Assistant Secretary of the Treasury Taylor.

The question of his right to land is very much involved. The Collector at San Francisco declares that Szechin's papers are entirely correct and regular, and the Chinese Consul-General insisting that he obtained admission through false pretenses. It is thought at the Department that there may be a good deal of Chinese politics mixed up in the case.

HONOLULU GRAND JURY IS STILL AT WORK.

HONOLULU, June 11.—The Grand Jury, which is investigating the charges of bribery in the Legislature has submitted a partial report to Judge Humphreys, but as a further report is coming, the report has been filed with the court, and not made public. Today Judge Humphreys gave the jury a statement, submitting to them, it is said, a new line of inquiry. The Grand Jury has made a very rapid inquiry into the matter, having examined fifty or more witnesses.

NEW DEAL IN NARROW GAUGE.

New Slip and Freight Yards for the Fill at the Old Mole.

One of the changes planned by the Southern Pacific Railroad Company on this side of the bay is that to be made a short distance east of the present Narrow Gauge Mole.

At the place described, a large slip is to be constructed. When completed, it will accommodate the largest boat now engaged in the ferry business between this city, and the other side of the bay.

The work is already all planned. The completion of the enterprise, however, is to be pushed as rapidly as possible by a large force of men.

When this slip is ready for use, it will cause a radical change in the location of the switching yards of the Narrow Gauge system in Alameda. Those yards are now located at what is known as Alameda Point where the original depot was built before the line was extended on a trestle to deep water. Beside the old depot was a ferry slip which was used in those days for the transport of freight and passengers to and from San Francisco. After the extension of the line and the passenger business to the Mole, the ferry slip was maintained for the transportation of freight and passengers. In order to reach this slip cars were compelled to come around a curve from Alameda on to the main track and then be switched to the slip.

Under the new arrangements, this switching will be discontinued. The cars will be drawn down direct to the new slip at the Mole, and then shoved on to the ferries in waiting. This will necessitate the laying of about a dozen more tracks at that place on which trains will be made up and cut into parts, as occasion requires. This place will then be the second largest railroad yards of the Company on this side of the bay.

SEVENTEEN ENTOMBED.

(Continued From Page 1.)

and two miners, three of a rescuing party that went into the mine to bring out the inmates who were entombed, were sent to the McKesson Hospital. Beveridge had both hands broken.

Searching Party.

A searching party composed of Superintendent William McCune and nine others went down shaft No. 2. Just before they were lowered the bell was rung from the foot of the shaft. The cage was already down and it was brought up with one of the men, Dettler, on it. The rescuing party then went down. Nothing was heard of them, and in an hour another rescuing force, led by James Bailey and William Williams, fire bosses, were let down the shaft. They had groped their way about 200 feet when two explosions were heard in rapid succession. The shaft lamps in the hands of Bailey and Williams were blown fifty feet away and they themselves were thrown violently to the ground. There was no response to their calls for their comrades and both men hurried back to the shaft and were drawn up in the cage. From then until 9:45 a. m. no others went down the shaft, as it would have meant certain death from the afterdamp.

Found a Body.

At 10 a. m. the body of Taylor Gunn, 34, was brought to the surface by the party headed by Inspector Callaghan. A big crowd surrounded the mouth of the shaft when the corpse was brought out and the scene was pitiful in the extreme. Many women were there looking for their husbands, fathers and brothers and they wildly appealed for the rescuers to save their loved ones.

Rescuers Injured.

The last rescue party had been in the mine about an hour when the muffled report of another explosion was heard. A dozen men volunteered to go down to endeavor to save the rescuing party, but their services were not needed, as the signal to hoist the cage was given from the bottom and when it reached the top three unconscious men were found lying on it. Fire Inspector Callaghan and Fire Boss McFee were the most dangerously hurt and they were taken to a hotel, where two physicians worked with them almost an hour before they could be brought back to life. So far two dead and three living men have been taken out.

Livingston Brothers, formerly of 543 Broadway, who for many years have conducted the hardware store at that location, have bought the cigar business at Ninth and Washington streets from B. Bercoyich. The Livingston Brothers are widely and popularly known in this city, where they have lived for sixteen years past. They have a circle of friends, and they will undoubtedly do a large business from their inception with their new store.

MEAL-PROVIDERS RAISE PRICES.

Result of the Demands of Cooks and the Waiters' Union.

On and after tomorrow, the mortals who subsist by dining or supping at restaurants will be taxed an extra price for every dish which they may order to satisfy their appetites.

The raise in prices will be determined at a meeting of the Hotel and Restaurant Keepers' Protective Association which is to be held tonight in the Croft-Hotel.

The increase in the prices has been decided upon by the association as a means of self-protection because of the increased expense caused by higher wages paid to cooks and waiters and allowing the members of those crafts one day off each week, concessions made on the demand of the Cooks' and Waiters' Union, which was established a few weeks ago.

The schedule of new prices to be adopted is only partially prepared and will not be ready until immediately before the meeting in question. It will be on a graded scale, the prices being different according to the class of hotel, full-priced restaurant, and restaurants where workmen and others of moderate means take their meals.

In some places prices have already gone up, but the increase is trifling.

With respect to nutrition, meat and pork, which are sometimes difficult to secure, there will be even a greater increase than that of 5 cents.

The firms and concerns represented in the Hotel and Restaurant Keepers' Association comprise Barnum's, Maison de l'Opera, Saddle Rock, Gals Kitchen, Merrick's, Palace, U. P. Fishery, Maison Piedmont, Liberty, Philadelphia, Postoffice, Louville, Louvre, Eclair, Chien, Metropole, Sam Kosta, San Pablo, Market Street, Postoffice in West Oakland, and a few others.

All the shops have gone back to the old hours, but few of them have removed the union cards. Becker stated today that he did not remove the cards in his shop because they were in his property and he had been placed there by the union.

Both Sides ARE FIRM.

(Continued from page 1.)

They arrive I will begin to feel easier. In regard to my stock I have plenty of cattle and hogs, and today John Stewart delivered fifty sheep at my shop, so I am well supplied. With my refrigerators at hand I have no fear of the meat spoiling."

Union Men Work.

The sensation of the day among the strikers was the returning to work of three union men, who had walked out of the City Hall Market on San Pablo avenue. The men, James Dunn, J. Oberg and C. Nash went out with the others yesterday morning, but today they applied to the proprietors, O'Connell and the others, and they agreed to take them back and they went to work immediately, to the disgust of the strikers.

At Steinbeck's shop on Telegraph avenue several non-union men have gone to work. Steinbeck has taken out his union card and has posted a notice on the door to the effect that the shop will not be closed hereafter until 6 o'clock in the evenings.

All the shops have gone back to the old hours, but few of them have removed the union cards. Becker stated today that he did not remove the cards in his shop because they were in his property and he had been placed there by the union.

Cards Remain.

That the union has taken no action in regard to the card has caused some speculation, since the shops are no longer union institutions. Secretary Douglas, however, stated that the union did not desire to rush matters and would wait to see if the wholesalers would not give in. The union held a long secret session last evening and sessions were held at intervals during today, but no action was taken in regard to the cards. It was also decided not to ask the cooks and waiters to refuse to handle non-union meat except as a last resort.

After the meeting this morning the Press Committee, composed of J. A. Harriman, H. S. Kohler and C. A. Vogel, made the following statement:

Strikers' Statement.

"We wish to contradict some misrepresentations made by Becker. He said that he put in a large supply of meat because we promised to stay by him. We did make that promise when he signed the union agreement, but we promised with the proviso that the union would not call us out on other conditions. This strike is the result of a combination between the wholesalers and a few large retailers, such as Becker, Newhall, Elizabeth, the Croft-Hotel, Fishers of Alameda. That Becker laid in such a large stock of meat goes to prove this. Another fact that goes to prove it is that J. A. Sells of the Eucalyptus Market, Alameda; Eckstein of the California Market, Alameda; Dick Fisher, Alameda; W. H. Soy, Grand Central Market, Alameda; and Dick Huntmann of San Francisco, all boss butchers, are cutting meat for Becker. The idea of the combination was to force the small dealers out of business by forcing out their union cards and we stood by the latter by calling a general strike."

"In regard to hours the union demands were that the men should work from 7 a. m. till 5 p. m. The bosses suggested that we go to work at 6 a. m. and we accepted the proposition, which was their own. Both sides accepted it and the smaller shops were pleased with the new schedule, but the large shops tried to back out of it."

Wholesalers Consider.

OAKLAND HARBOR
NEWS NOTES.

Cargo of Flax Arrives at Grove Street Wharf For the Mills.

The arrival of the steamer Broad-gauge with 125 bales of flax for the California Flax Mills at the Grove street wharf Saturday attracted a number of people to the dock. Very few of those who gathered had ever seen flax in its crude form and it was therefore of considerable interest.

The flax mills at Third and Union streets continue to give employment to more than fifty men and women, and they are now running to their fullest capacity. They are a source of considerable revenue to the city through the docking at the Grove street wharf of flax-laden yessels.

A New Steam Schooner.

Large Force at Work.

The dull season at the California Cotton Mills has not resulted in the expected discharging of men. At this season of the year there is generally very little business to be done at the mills, but the usual force of men are being employed and it is expected that the mills will run steadily during the summer.

FUNERAL OF THE LATE
HENRY LEFEBRE.

The death of Henry B. Lefebre in San Francisco yesterday, as announced in last evening's TRIBUNE, while not entirely unexpected, came as a shock to his many friends in this city. The deceased, for over a year past, has been travelling for his health and until quite recently hopes were entertained of his recovery. He was a son of the late Dr. A. Lefebre, one of the most successful practicing dentists in this state. The young man was a native of this city and for some years prior to his death, occupied the position of assistant paying teller in the Union Savings Bank. He had a faculty of making many and warm friends and his demise will be sincerely mourned by those who knew his genial, sunny nature. His sister, Mrs. Philip M. Walsh, resides in this city and his mother and two brothers, Charles and Louis, in San Francisco. The funeral services will take place tomorrow morning, the interment to be at Mountain View Cemetery.

"Will you continue to serve as first vice-president of the company?" he was asked.

"You must ask some one better informed than myself," was his reply. "Pending the election of new officers, the old officers continue in their positions. For some reason the recently elected directors have not elected a full set of officers as yet."

TUESDAY, JUNE 11, 1901.
LOOKING FOR THE NORTH POLE.

Another polar expedition is about to set out for the North Pole, and from the modesty with which its leader, an American named Evelyn B. Baldwin, speaks of his intentions, there is hope of his accomplishing more than his predecessors, who have been prone to discuss their doings in advance of execution. "When we have accomplished something," he says, "it will be time enough to talk."

That is the proper spirit. In the meantime, so far as his plans are known, he will winter in Franz Josef land and will pursue his investigations from that base with a party of forty men. There will be 15 Siberian ponies and 400 dogs to carry provisions and the equipment of the expedition is to be the best that can be devised. The mistakes of previous explorers will serve as so many lessons, in this respect, and, as he will be sure of his source of supplies, Baldwin will possess an obvious advantage over those who have preceded him in this field.

That the pole is not to be reached by way of Baffin's Bay and the Greenland coast ought, by this time, to be accepted as conclusively demonstrated, and with the discovery of Herald Island and the dissipation of the belief that a large area of land lay north of Bering's strait, calculations based upon that avenue of approach had to be reconstructed. The comparative success of Nordenskjold emphasized the possibilities of reaching absolute north from the European part of the Arctic Ocean, confirming the favorable opinion of that route which had long been entertained by geographers and navigators. Baldwin, therefore, has the weight of experienced judgment on his side in going the way he has selected.

The discovery of the North Pole and the results of the observations taken there would be the greatest gift of the twentieth century to the scientists of all succeeding ages and it is hoped that an American will be the man whose name shall be associated with the achievement. Others will follow when he shall have shown the way, but an American will have had the glory of reaching that mysterious spot before anyone else.

A Californian who recently took up residence in Tacoma has been arrested for going on a rampage in that city. The Tacomans should have expected such a happening, for they must have realized that he was insane or he would not have left California to make his home in their city.

An English explorer in Africa claims to have discovered living specimens of a prehistoric mammal. Wonder what brand of drinking water he had been sampling before he saw the freaks in question.

WORK TO DO HERE.
Important as the survey of the harbors of Cuba is, as just completed by the naval authorities, it seems to us that it could readily have been postponed until a later date and that the resources of the navy would have been better employed in charting the coast of the North Pacific, rather than in investigating the depths along a sea-line that is not ours—yet. Within the last five years the way to Alaskan ports has been used to an extent far in excess of that from any Atlantic point to the coast of Cuba outside of Havana. Yet no new charts have been issued on the Pacific side, notwithstanding the long list of marine disasters recorded since the beginning of the rush to the Klondike and the subsequent discoveries in Nome.

The fact is that the importance of American interests on this side of the continent is not appreciated by the bureaucrats at Washington. They prefer to go pottering around Cuba and half of them have never seen this side of the continent, do not know what it looks like, and would not care if they did. The wrecks along our coast, the fact that a revenue cutter runs on an uncharted rock, the insufficient number of light-houses—these are matters of no concern to the men who hold life positions at the national capital. A flagrant instance of similar neglect in another branch of the service has also come to light in the trouble along the border between Washington and British Columbia. United States citizens are likely to lose mines worth over a million of dollars, and upon which large sums of money have already been spent, simply because our coast and geodetic survey could not spare the time to determine correctly such an important matter as the boundary line between the United States and Canada. The life-time subordinates need a shaking up.

Now that the indemnity terms have been disposed of, China has requested that the allies depart forthwith. They have apparently not forgotten our slogan that "The Chinese must go," and are going to give us a dose of our own medicine.

The new State Barber Commission is about to organize for business. Its members ought to be able to shave their warrants without much difficulty.

PLANS FOR A STORM SEWER.

City Engineer Fred Turner Submits Facts and Figures to the Council.

Another step toward realizing the proposed storm sewer on Adeline street was taken last night, when City Engineer Fred C. Turner submitted plans and estimates for the improvement, together with a proposed resolution of intention and a map of the region affected thereby.

"As a basis for discussion," says the City Engineer in his report, "I have outlined a proposed assessment district, subject, of course, to your approval or amendment. The law reads that the district is to be assessed for 'benefits.' Hence no property can be assessed above Adeline street except what fronts on said street.

"Some of the property included in the district does not derive any benefit directly, as it is flooded in storms; but it does derive benefit by reason of the benefit to San Pablo avenue, which is the main outlet for all this region, and for this reason, in my judgment, all such property should be included."

The Engineer's estimate of cost of the proposed storm sewer in Adeline street from the northern boundary line of the city of Oakland to Temescal creek is as follows:

6,100 cubic yards excavation (including 2,200 cubic yards re-fill) @ \$0.25	\$1,525 00
954 cubic yards concrete @ \$9.00	\$8,586 00
9 catch basins @ \$50	450 00
1 catch basin @ \$100	100 00
6 manholes @ \$30	180 00
Connection with culvert at Temescal Creek	20 00
	\$10,861 00

15 per cent for superintendence, engineering and contingencies \$1,629 15
Total \$12,490 15
The report was referred to the Street Committee and will be fully considered at a meeting to be held Thursday night.

MINISTERS WILL WALK TO YOSEMITE VALLEY.

A party of ministers and professors left this city yesterday on a somewhat novel vacation trip to Yosemite. There were in the party the Rev. George B. Hatch of Berkeley, the Rev. J. R. Knoll of Santa Cruz, Professor Klapp of the University of California, and Professor C. S. Nash of the Theological Seminary of the Pacific. They have arranged to walk from Sonoma to the Yosemite Valley and back to the starting point. Mules will accompany the party to pack the luggage, and a chef has gone along to furnish the meals.

GREAT MEETING IS PLANNED FOR JUNE 25.

Among the interesting events of the summer, especially to women, is the arrival on this coast of Mrs. Mary Wright Sewell, president of the International Council of Women.

By virtue of her office, Mrs. Wright represents seven millions of women, the women of all nations belonging to the International Council. The last meeting was one of the notable events of the century, and was presided over by Lady Aberdeen. An American woman was chosen to succeed Lady Aberdeen, and the choice of the thousands of women assembled in London was Mrs. May Wright Sewell.

The International Council of Women was extensively entertained by the nobility of England, under the leadership of Lady Aberdeen, and the thousands of women in London for the notable meeting, will remember the afternoon tea of the late queen Victoria.

The International Council of Women is the strongest and most powerful league of women in the world, and has among its foremost workers the most prominent women of all civilized nations. The coming of its President, Mrs. Sewell, to this coast, is therefore among women, one of the events of the summer.

Mrs. Sewell was sent by President McKinley to the Paris Exposition to represent the women of America at one of the gatherings there. The first meeting of the day is planned. There is to be an all-day symposium, prominent women, on different topics being assigned for each hour in the day. Visitors may choose the topic they care to hear, and attend the symposium at that hour. Basket luncheons will be of coffee provided by the ladies in charge of the affair.

For the afternoon hours, as the Unitarian Church will probably be too small to hold those desirous of attending the symposium, it is hoped to secure Hearst Hall.

The various women clubs on both sides of the bay are to be called together to plan suitable receptions for Mrs. Sewell. Many of the leading families are near enough to come to the city if need be for any large affairs, and the June dates in honor of Mrs. Sewell will be among the most interesting of the summer events.

M'CHESNEY TAKES HIS FAREWELL.

Ex-Principal Says Last Word to Boys and Girls of Years Ago.

Ex-Principal J. D. McChesney, in his farewell address to the High School students, said:

"As I review the years in which I have been identified with educational affairs, I think I see a gradually changing attitude of parent toward teacher and pupil which is fraught with danger to the republic. It seems to me that parents do not take that vital interest in the education of their children that they did years ago. I refer to that interest which leads fathers to leave their business occasionally and visit the school, confer with the teachers, and thus obtain a personal and direct knowledge of what the school stands for. There is too much apathy, too much of the thought that responsibility ends with the payment of taxes and that school boards and teachers are to look after the education of your children. I have often wondered if this changing attitude is the result of our system of public schools. Does the fact that the State looks after the education of its youth tend to remove responsibility from the parents? This is a vital question, as it affects the highest welfare of the republic. Any influence which tends to leave the school in the hands of the State, or to weaken its unity, must be viewed with alarm. Hence my last words to you parents are to visit the school more frequently, become acquainted with its teachers, support them by your cheering words and assure them of your hearty cooperation. Furthermore, let it be understood that you desire efficiency and not cheapness. A cheap school you have no use for."

If I leave the school in the hands of a faithful and efficient corps of teachers, their interest in it and in the progress of its pupils is deeper than you can appreciate. Let them know how much you value their labors. Encourage them by your frequent presence in their class rooms.

"A last word to my boys and girls of years ago. I always knew you had the making of noble men and women. Your lives and the part you have taken in the world's work abundantly prove it. Your kindness to me has affected me more deeply than words can express. May a kind Providence ever guide and protect you and yours."

OAKLAND EXPRESSMAN DROPS OUT OF SIGHT.

Mrs. William Sinkwitz of 616 Franklin street, Oakland, notified Coroner Leland of San Francisco yesterday that her husband, an expressman, had been missing since June 6th. She found that he had left a note of farewell, from which the following extracts were furnished the Coroner: "My Dear Baby: By the time you get this letter I will be no more. * * * I will give up the battle of life and leave you in despair." Mrs. Sinkwitz said that the missing man had been physically disabled for a long time and was dependent over his inability to work. He was 27 years old, five feet four and one-half inches in height and weighed 20 pounds. His eyes were light blue and his hair blonde. When last seen he wore a gray soldier's hat, blue sack coat, checked brown vest and corduroy trousers.

Happy Motherhood.

Motherhood ought always to bring happiness. But it is often the beginning of life-long unhappiness. As a preventive of the ills so often following maternity Dr. Pierce's Favorite Prescription has been hailed as a "God-sent to women." It heals diseases peculiar to women, tones up the system, makes motherhood practically painless, and establishes the sound health which insures healthy children.

"During the past year I found myself pregnant and in rapidly failing health," writes Mrs. W. J. Kibler, of Hill Dale Farm, (Frostburg, Md.). "I suffered dreadfully from bloating and urinary difficulty. I was growing perceptibly weaker each day and suffered much sharp pain at times. I felt that something must be done. I sought your advice and received a prompt reply. I took twelve bottles of Dr. Pierce's Favorite Prescription, and also followed your instructions. I began to improve immediately. My health became excellent, and I could do all my own work (we live on a good sized farm). I walked and rode all I could, and enjoyed it. I had a short easy confinement and have a healthy baby boy."

Dr. Pierce's Medical Adviser (paper covers) is sent free on receipt of 21 cent stamps to pay cost of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

AMATEURS SUCCESSFUL WITH A LOCAL PLAY.

The ladies of Unity Chapter produced "Charles" at Alcazar Hall, West Oakland, last evening, under the direction of Miss Ethel M. Butler. It was a great success. The cast was as follows: Captain Robert Hackett, one of the National Guard, a lawyer by profession, and a bar by choice, Harry Adams; Obadiah Dawson, his uncle from Japan, who tries to play even and, as usual, gets the worst of it, H. A. Gilman; Timothy Tolman, his friend, who married for money and that is all he got, Niles Searles, Jr.; Mr. Dalray, the Captain's festive old father-in-law, Henry Schwarz; Hobson, a messenger from the "Zinkand," who adds to the confusion, Leo Brown; Charles, the Captain's pretty wife, a little girl, but not half as bad as she is painted, Miss Ethelwyn McCall; Miss Tolman, a lady of a certain age and uncertain temper, Miss Lou Adams; Katy, a French maid, from Cork, with a German accent, Miss Edna Gilman.

A social dance followed the production of the play.

COUNCIL ORDERS APPEAL TAKEN IN THE WATER CASE

Rates Fixed for the Present—Wallace Roasted to a Turn for Duplicity by Wixson and Courtney.

Last night the Council ordered an appeal taken in the water case, the vote being unanimous. Before the passage of the resolution Wixson delivered a hot speech in which he scored the fomenters of the water agitation and announced his opinion that the appeal would be fruitless of any result save the further expenditure of money.

A resolution was also passed fixing water rates for the present year. Auditor Breed's action in tying up the money intended for the High School largely prompted this act. During a lively discussion he came in for a warm roasting at the hands of Councilman Schaffer, who directly charged him with bad faith. Wixson also took a shot at him.

But the fun of the evening was the summary suppression of Wallace, the puritanical professor from the Seventh Ward. Wallace started in to lecture the majority, but got such a hot and hasty drubbing that he was glad to subside and let the storm die down. Courtney and Wixson took turns at dressing him down, while Bon and Boyer put in an occasional hot shot.

Ever since he entered the Council it has been the habit of Wallace, whenever the action of the majority did not suit him, to address them as bad little boys and point out in a superior, child-like manner the bad place they will go to if they don't do as he tells them. The other members took this good naturedly at first, but as the practice became more pronounced and the tone more arrogant and censorious, they eventually considered that it was high time to stop the business. And they did. To say that the professor was astonished is putting it mild. He was paralyzed. Courtney and Wixson carried the war into Africa. They charged him with inconsistency and sneaking out of the committee room while a Municipal League associate got through a liquor license.

"I know where the member from the Seventh Ward has made promises that he has not kept," said Wixson.

Wallace attempted a feeble denial, but Wixson cut him short saying: "I will point out the instances if you want me to, and give the day and date for what I say." Wallace uttered no further protest, but sat looking dazed and crushed.

AN APPEAL ORDERED IN THE WATER CASE.

Chairman Bon of the Ordinance and Judiciary Committee reported back the following resolution introduced by Councilman Wixson with a recommendation that it do pass:

"Whereas, although we are informed by the City Attorney that the findings and notice of decision in the water case, lately decided by Judge Hart, have not been served upon him, thereby giving him official notice of the decision in that case, yet the general public seem to think that this Council should take some action upon that subject matter and place its members upon record an appeal in that suit; and

"Whereas, many members of this body have publicly or privately expressed themselves in favor of taking an appeal from the decision of Judge Hart;

"Now, therefore, in order to remove any doubt that may be in the mind of the public and to prevent unjust criticism against this Council and its members, although we are not to blame for the delay, and in order that our position may not be misunderstood or misconstrued, but fully known:

"Be it resolved, That this Council does hereby express itself in favor of the proposition that an appeal be taken from the decision of Judge Hart in the so-called water case, and the City Attorney is hereby authorized and directed for and in behalf of the city of Oakland, when the proper time comes, to take an appeal from said decision of Judge Hart and to take such measures as may be deemed necessary in that regard to keep alive and protect the interests of this city in the matter of taking such an appeal.

COUNCILMAN WIXSON GIVES STRAIGHT TALK

Wixson deliberately arose and made the following statement:

"I want to say something on this resolution, and I want to say it now so that my position may not be misunderstood. I will vote for it, but I will do so solely because the public want the case appealed, and for no other reason. I don't believe the city of Oakland has a chance on earth to win that case. If the Contra Costa Water Company did business in this city for a hundred years the rates fixed by the last Council could never be made to stick. It is impossible that any court will sanction the valuation placed on the plant by the last Council, a valuation that compelled the Water Company to borrow \$80,000 more than its revenues to carry on its business.

"One of the Councilmen that adopted those rates said the object was to fix the rates so low that the plant would fall into the hands of the city."

"When the case was carried into court an attorney was employed solely because he was a fighter. His whole business was to fight the Water Company whether there was anything to fight about or not. For eight long months he kept up this fight, when the

trial should have ended in less than half that time. He knew there was no chance to win the case. He told a friend of mine that he would never have taken the case had he known how the Councilmen had expressed themselves. He also said the Council should have fixed rates on a valuation of at least \$5,000,000. This was an admission that he knew the city had no chance from the start, but he drew the case out for eight long months at an expense of many thousands of dollars to the city. Such conduct is not decent and it is not fair. Judge Hayns should never have been employed, because he has entailed vast unnecessary cost, and everything he has done has proved a failure.

"This whole water excitement has been worked up by a few individuals, and they are howling for an appeal well knowing it will prove useless. It is a species of hydrophobia. The Tenth street concern tries to make everybody do its bidding in order to keep up a war on the Water Company. Every man who uses his own judgment and refuses to be driven into aiding its desires is charged with selling out. It wants to drive the water company out of business and confiscate its plant. The people of Oakland do not want that. They desire to treat the water company fairly, but are misled by misrepresentations and aroused by appeals to passion and prejudice. They want this case appealed, and I will vote for it, but it will be a waste of time and money. It cannot be won, never could have been won, and an appeal only prolongs a useless and foolish struggle. The case has been juggled from A to Z, and the city had no case to begin with. I say this now and leave the results of the future to be put out in what I say."

THIS YEAR'S RATES FIXED BY THE COUNCIL

However, the band did not really begin to play till the following report of the Ordinance and Judiciary Committee was read.

We, the Committee on Ordinance and Judiciary, to whom was referred the resolution fixing water rates to be charged consumers for the fiscal year ending June 30, 1901, beg leave to report, as follows:

Your committee had the matter under discussion and consideration, and members of this committee have consulted the City Attorney and other lawyers, and we have come to the following conclusion:

First—We are all in favor of taking and perfecting an appeal from the decision in the water case to the Supreme Court.

Second—If, upon such appeal Judge Hart be sustained, then no water rates have been fixed in the city for the fiscal year ending June 30, 1901.

Third—If Judge Hart's decision be overruled by the Supreme Court, then the ordinance passed by the former Council in 1900 fixed the rates for such fiscal year and would be held valid and no harm can come from the passing of this resolution.

Fourth—That the action of this Council in passing this resolution can have no harm in law upon the result of such an appeal, as in no event could this action or this resolution become a part of the records in said case before the Supreme Court.

Fifth—That, as the matter now stands upon the decision of Judge Hart, no rates have been fixed for the fiscal year ending June 30, 1901, and it is the duty laid upon this Council by the Constitution and the Act of 1881 to fix all such rates, and that if this Council neglects to discharge its duty, the members thereof are open to proceedings upon such neglecting rates in office and upon conviction lose their office and become subject to a fine of \$500 and costs.

Sixth—That we do not believe that any considerable number of the citizens of Oakland believe in insisting upon taking any unnecessary measures to secure a forfeiture of the franchise and water works of the Contra Costa Water Company of this city.

Therefore these resolutions above, we respectfully return said resolution and recommend that the same be adopted.

Wallace commenced his regular bad boy talk, first scolding Wixson for his criticism of the Enquirer and charging him with violating the pledges made during the campaign. He said there was probably only one ward in which a man who would vote for the resolution could be elected. He made no attempt to argue the question, but merely reminded the other Councilmen in a very hectoring way.

"Why didn't you say something when Caviller wanted to fix rates for this year?" asked Bon.

The question was ignored and the scolding went on. When the tirade ceased Wixson got out his roasting fork and impaled the Seventh Ward pedagogue.

COUNCILMAN WALLACE IS GRILLED HARD.

"I don't know why the member from the Seventh Ward should defend the yellow journal on Tenth street nor why he should charge me with inconsistency," said Wixson. "I have violated no pledges, nor is anything I have said or done here inconsistent with what I said during the campaign. All I ever promised was to be fair, and I am trying to be fair. As for the Enquirer, it is a curse to the town, and has been a curse for many years. It has got this city into all its troubles, and is abusing everybody who tries to do anything to build up the community, and does all it can to set people by the ears and get everybody to squabbling. It is not

honest in this water business, which it seems unable to tell the truth about. If the gentleman wants to defend that sort of thing he is welcome to do so, but when he charges me with inconsistency he does so without any basis of fact. He is inconsistent himself. He has made promises that he has refused to fulfill. He has made great professions of temperance, but when another Municipal League Councilman wanted to get a liquor license granted the member from the Seventh Ward turned his back until the thing was done.

"I have not been inconsistent," interrupted Wallace, feebly.

"I can name the time and place, give you the instances, if you want me to," said Wixson, glovering over him like an avenging Nemesis.

"Mr. Caviller wanted to fix rates for this year," said Boyer. "Why didn't you denounce him? All of you sit still and endorse what he said. Now when there is occasion for doing this you object."

"Auditor Breed says there are no rates in existence," continued Wixson, "and the law makes it out duty to fix rates when none have been established. Auditor Breed down stairs says there are no rates, while his political associates upstairs say there are rates. Judge Hart has decided that there are no legal rates in existence. Now the teachers who have earned their salaries are being buffeted back and forth between the Auditor and the Municipal League members of the Council. If we stand upon the pretense that the rates fixed by the last Council are legal, the Auditor should pay the water bills. If Judge Hart's decision is correct, and I don't believe there is the lot of a chance of having it set aside, there are no rates. At all events, nobody can lose anything by fixing the rates now, for all the bills for the year have been settled."

COUNCILMAN COURTNEY TAKES A HAND.

"The Councilman from the Seventh Ward has taken a fling at the ward in which I reside," said Courtney. "It is assumed by him and persons like him that all the good people in Oakland have gathered in the Seventh ward, and that the people in the other parts of the city are bad. I am a little tired of hearing that the people in the Seventh ward are all angels—or ought to be angels. The residents of other sections are just as good, if no better. I am not inconsistent and have broken no pledges, but Mr. Wallace is inconsistent. His attitude on this very matter is inconsistent with his attitude when Mr. Caviller proposed to fix the rates. He is not consistent on the liquor question. He poses as an opponent of saloons, but he dodges when one of his Municipal League associates has a liquor license to get through."

"I have never failed to vote when I have been in the building," plaintively protested Wallace.

"When the committee had liquor licenses under consideration you stayed till one came up that one of your friends was interested in; then you went out and did not come back till it had been reported on favorably," retorted Courtney.

"I have here a legal opinion rendered at my request by my attorney, which I think effectually disposes of the objections raised against fixing water rates for this year. If the Council desires to hear it I will read it."

"If there is no objection the opinion will be read," said President Schaffer. Courtney then read as follows:

OPINION AS TO DUTY OF THE COUNCIL.

"OAKLAND, Cal., June 10, 1901.
"W. P. Courtney, Esq.—Dear Sir: In reply to your inquiry from me as to what the legal effect would be upon the rights of the city of Oakland, as well as the members of this Council in case this Council should fix water rates for the year ending June 30, 1901, let me say:

"First—As to the duty of the Council to fix rates:

"Article 14, Section 1 of the Constitution provides: That the use of water in cities is declared to be a public use."

"STRIKES THE SOURCE.

A Pile Cure that Goes to the Root of the Disease.

There are lots of lotions, ointments and salves that will, through their soothing influence, relieve temporarily the pain incident to piles. But is that all the sufferer requires? Isn't it a horrible thought to realize that the case is only temporary and the disease goes on under the surface without a moment's interruption? Wouldn't it be wiser to select a remedy that seeks the source and regulates those deep-seated disorders which induce the disease? Pyramid Pile Cure not only relieves the pain at once, but effects a permanent cure of the worst form of piles. You don't have to go through a tedious course of dieting while using it, either. It strikes through the delicate membrane, relieves the inflammation, reduces at once the painful inflammation and congested tumors. This remedy is not a haphazard combination of drugs but is a remedy invented by specialists who have treated piles and blood disorders successfully for years. Manufactured by the Pyramid Drug Co., at Marshall, Mich. Almost any first-class druggist has it on sale. Don't treat this disease with every lotion and salve that comes along. Remember the parts affected are among the most delicate in the human body. This remedy is absolutely safe and no one need fear to apply it freely on the most inflamed parts. The speed with which it allays the pain is an agreeable surprise to the sufferer.

subject to the regulation and control of the State, in the manner prescribed by law, provided that the rates for compensation to be collected by any person, company or corporation in this State for the use of water supplied to any city and county, or city or town, or inhabitants thereof, shall be fixed annually by the Board of Supervisors of the city and county, or City or Town Council, or other governing body of such city and county, or city or town, by ordinance or otherwise, in the manner that other ordinances or legislative acts or resolutions are passed by such body, and shall continue in force for one year, and no longer. ***

"Any board or body failing to pass the necessary ordinances or resolutions fixing water rates where necessary within such time shall be subject to peremptory process to compel action at the suit of any party interested, and shall be liable to such further processes and penalties as the Legislature may prescribe."

"Any person, company or corporation collecting water rates in any city and county, or city or town in this State otherwise than as so established, shall forfeit the franchise and water works of such person, company or corporation to the city and county, or city or town, where the same are collected for the public use."

"The Legislature has passed upon this matter, after the adoption of the constitution, and on April 7, 1881, an act was passed and approved providing for the fixing of water rates in cities and the like, and prescribing penalties for the non-performance of such duties." Section 8 of that act reads as follows:

"Section 8.—Any Board of Supervisors or legislative body of any city and county, city or town, which shall fail or refuse to perform any of the duties prescribed by this act at the time and in the manner hereinbefore prescribed by this act at the time and in the manner hereinbefore specified, shall be deemed guilty of malfeasance in office, and upon conviction thereof at the suit of any interested party in any court of competent jurisdiction shall be removed from office."

"The preceding sections of this act provide for the method of obtaining information and then provide that the Council shall fix the rates that shall be charged and collected, and it is made their official duty annually to fix the rates, and the rates shall be fixed at a regular or special session of such board or other legislative body held during the month of February of each year, and shall take effect on the first day of July thereafter, and shall continue in full force and effect for the term of one year, and no longer."

"Our Supreme Court in the case of Fitch vs. Board of Supervisors, 122 Cal. 285, has held that the board can fix the rates after February."

"We find, therefore, that the fixing of rates is an official act and duty imposed by the Constitution, as well as by the Act of 1881, and we have a legislative penalty provided in the act of 1881 and also a manner of procedure as well fixed in Section 772 of the Penal Code, which provides that:

"Section 772: When an accusation in writing is received by the court of any person is presented to the Superior Court, alleging that any officer within the jurisdiction of the court has refused or neglected to perform the official duty pertaining to his office, the court must cite the person charged to appear." ** and the court must proceed to hear in a summary manner the accusation and evidence offered in support of the same and the answer and evidence offered by the party accused; and, upon such hearing, it appears that the charge is sustained, the court must enter a decree that the party accused be deprived of his office and must enter judgment for \$500 in favor of the injured person, and such costs as are allowed in civil cases."

"It is therefore plain, first: that a duty is imposed upon the Council to fix rates, and secondly: penalties are provided against the Council in case they neglect to do so. As to the effect of fixing such rates upon an appeal from Judge Hart's decision:

"As is provided by the Code of Civil Procedure, and by decisions of our Supreme Court, that when a case is appealed from a Superior to the Supreme Court the only matters that come before the Supreme Court are such matters as are contained in the 'record' of the case made up by the County Clerk after notice of appeal has been given. The contents of this record are fixed by law and no one can say, who knows anything about the subject, but that the only things that come before the court are the papers on file in the court, and the testimony taken, and motions made during the trial thereof. The trial of the so-called water case before Judge Hart has been concluded. The decision has been announced, and the record is made up. Therefore, no change can get into the record in that case that goes before the Supreme Court that has happened since the termination of the trial, except the papers that the lawyers file in the court, and the like. In other words, there is nothing that I know whereby any action of the Council of the city of Oakland taken during the trial of the case before the Supreme Court, and I fail to see in what manner anything that this Council might do could be used, or even referred to in hearing before the Supreme Court upon appeal of the water suit. Therefore, the conclusion is that whatever action the Council would take now, it has no bearing upon that suit or the decision to be rendered by the Supreme Court as far as the merits of the case are concerned. All that can be done now would be to go on with the appeal, or instruct your attorneys to dismiss it."

"You ask me should this Council, or you as a member thereof, vote to fix rates for the year ending June 30, 1901. As I understand the matter the City Council has some time ago adopted water rates to be paid and collected in this city for the fiscal year ending 1901. This was passed, I believe, some time in March, 1901. The Contra Costa Water Company began an action in this case about a month or so ago, and referred to it to set aside that ordinance and declare it void for the reasons set forth in their complaint. In that case Judge Hart decided, in substance, if the newspaper reports be correct, that the ordinance was void, for reasons given in his decision. Now, if Judge Hart's opinion and decision is sustained by the Supreme Court, it follows that the ordinance being void, no water rates have been fixed for the fiscal year ending June 30, 1901. If that should happen, then it surely is the duty of the Council to fix such rates. If, on the other hand, the Supreme Court should reverse Judge Hart's decision and hold that the ordinance of March, 1900, was valid, any action you might take fixing water rates for that same period would be null and void, because they had been legally fixed in March, 1900. In other words, if the Supreme Court should hold that the ordinance of March, 1900, was valid, any action the present Council might take would do no harm,

but, on the other hand, if the Supreme Court should uphold Judge Hart there would have been no water rates fixed for this year and you would have neglected your duty in that regard and be subject to attack in the courts under the sections above quoted. More than that, if the Supreme Court should sustain Judge Hart and find the ordinance of March, 1900, to be void, then there would have been no rates fixed, unless you now fix them, for water furnished in Oakland for the fiscal year ending June 30, 1900, and the Contra Costa Water Company would doubtless have countless actions brought against it to recover the water rates paid and probably proceedings brought in behalf of evil minded persons to declare forfeited their franchise and water works under article 14 of the Constitution."

"The Contra Costa Water Company has expended large sums of money and paid its share of taxes into the City Treasury. It is entitled to the same protection at your hands as a public officer as any other citizen or taxpayer in the city. It has furnished water to consumers who asked for it during the year 1901. It is entitled to the same protection at law and at your hands in that regard as any other person, or corporation, including therein the city of Oakland. Would it not be fair and just, and is it not your duty as a public official to protect the rights of this corporation and in the doing of your duty in that regard enable the company to have proper protection and prevent multitudinous and vexatious lawsuits to recover back the money for which value has been rendered by the company upon a pretext or technicality of the law? Of course, if you should wish to institute or cause to be instituted proceedings against the company to forfeit its franchise and deprive it of its water works and property upon technicality or legal quibble that rates were not fixed for the collection of its water for the fiscal year 1901, it might be a point in favor of such proceedings not to fix rates. But I take it that it is your duty as a public officer to act fairly and justly between all parties in this matter. Therefore, I advise you first that it is your duty under the circumstances, and for the reasons above given, to fix water rates for the year ending June 30, 1901, and that conditions might arise hereafter as above outlined such that should you fail in doing your official duty proceedings might be brought against you and you be removed from office, and finally that it seems to me fair and equitable and just between all the parties and can do no harm to anyone, that such water rates should be fixed before July 1, 1901. Yours truly,

"GEORGE E. DE GOLLA."

A CLEAR STATEMENT BY PRESIDENT SCHAFER.

"I wish to say something about this water ordinance," he said. "Sometime last May there was a conference between members of the Council, members of the Board of Education and representatives of the Water Company relative to getting money to run the schools. The city was in a sad condition financially. The Treasury was depleted, bankrupt in fact, and the High School would have to close unless he could get money to pay the teachers. It required \$10,000 to do this, and practically all this sum had to be got outside the Treasury. I pledged the teachers that I would do all in my power to get them their money if they would continue teaching.

"The Gas Company agreed to accept the amount of its bills for ten months in full for the year, and to donate the sums that would be due it for May and June to the High School fund. The Water Company agreed to do the same. But the Company had disputed legality of the rates fixed by the Council and has obtained a judgment against the city. Nevertheless it agreed, on account of the financial straits of the city to accept ten months' bills based on those rates, and donate the sums due for May and June to the School Fund. On the basis of those rates this was equivalent to making the city a present of about \$10,000. If Judge Hart's decision is sustained the amount donated amounts to many thousands of dollars more."

"This agreement was made pursuant to a stipulation drawn up by the City Attorney which protected the city's legal rights in the litigation. Neither side waived any rights, but the compromise was made for the teachers. It was entitled to receive in any event. After the bills were ordered paid Auditor Breed refused to approve them basing his refusal on the ground that there are no rates in existence and the law forbids the city to pay for water unless there are some rates in force. He takes the ground that Judge Hart has set aside the rates, and that the Company cannot therefore collect for water supplied to the city.

"Because of this the money that the Company has donated to the School Fund cannot be made available. To do away with the Auditor's objections and get this money for the teachers we should pass this resolution. What this compromise was presented for the sanction of the Council, Mr. Caviller wanted us to fix rates for the present year before adopting it. There was no objection from his political associates, but they now oppose fixing rates for some reason or other.

"Passing the resolution will not affect either the city or the ratepayers. The city has settled with the Water Company on the rates and the same is practically true of the ratepayers. The city owes the company for the water supplied, but under the Auditor's construction of the law it cannot be paid till rates are established. He claims that if the company's plan can be forfeited it collects for water without rates being fixed by the Council. I believe this is the motive behind this matter, and I favor the passage of the resolution to prevent any further trouble. There is a purpose, I believe, behind this to bring us to forfeit the company's property. All of us have agreed that we do not favor any such scheme, and have passed a resolution to that effect.

"I believe that Auditor Breed is basing his refusal to audit the water bills on the ground of no rates being established to create a pretext for a forfeiture suit. I asked him what he would do if Judge Hart's decision was sustained and bills for a larger amount ordered paid. He said he did not know. I believe we should have an Auditor who does not have to be dragged into court and told what to do.

"I am satisfied from reading the legal opinion given Mr. Courtney that it is our plain duty to fix rates for the present year, and that we lay ourselves liable by not doing so.

"Again, I am certain that the passage of this resolution cannot affect the water case on appeal. The record in that case is made up, and it will go to the Supreme Court on that record. What we are doing is to alter that record and get into it. The issues presented during the trial will go to the Supreme Court."

FINE BRIDGE AT

Work on the Structure Is Now Being
Rapidly Pushed
Forward.

SAN LEANDRO, June 11.—Work on the new bridge is being rapidly pushed forward. The work of excavating down to the required depth will be completed within eight or ten days after which work will be commenced by the carpenters in getting in the centers and building the forms for the parapet wall which will be 200 feet long with ballustrades, coping, an eight foot concrete sidewalk and granite curbing, leaving clear a 40 foot roadway. The span of the bridge is to be eighty feet. Since the work commenced, from twelve to forty-eight horses together with a large crew of men have been busy constantly.

Considerable trouble has been caused by the caving in of the banks, which greatly delayed the progress of the work. As soon as the forms are up, work will be commenced on the concrete, the material for which is all ready on the grounds. It consists of 500 yards of crushed rock, 450 yards of sand and 3,000 barrels of cement, which is only a small percentage of what is to follow.

One of the best numbers on the program was given by Professor Palmer's Juvenile Mandolin and Guitar Club, which rendered "The Tinkling Star Polka" and "Poet's Dream Waltz" so well that they were forced to give several other selections to satisfy their listeners. Berkeley Trustees Will Go After
Men Who Are Violating
the Law.

BERKELEY, June 11.—Determined that the law which prohibits the selling of spirituous liquors within a mile of the University of California shall be observed, Trustee Ryder presented a plan at last evening's session of the Board of Trustees which is destined to close the business places of all those who are breaking the law.

Ryder's measure provides that all those who are in business shall be compelled to take out a license. It is further proposed that if any man be caught violating the liquor laws his license shall be permanently revoked.

The following charges were made, when the resolution was opened for discussion by Trustee Turner: "There are at the present time more cigar dealers within the mile limit who are doing more of a business in whisky than they are in cigars."

The matter was finally referred to a special committee consisting of Trustee Richard, Town Attorney Hayne and Marshal Keens. They will report at a special meeting to be held Friday evening. It was recommended that the guarantee bond of the Pacific Improvement Company for the completion of the North Berkeley electric line be returned.

POOR OLD MOSE IS
AGAIN IN THE BASTILE.

After an absence of several months, Mose Allback, familiarly known as the "Moses of the City's Bastille," again turned up and graced the Police Court deck this morning in his old familiar way.

"Mose," called out Police Court Clerk Hennessey, "you are charged with being drunk. What's your plea?"

And then Mose, in his old familiar way, explained the reason of his ex-hilaration. "I have been away for some time," he said, "and have been working all the while I was absent. Yesterday a longing for dear old Oakland seized me, and I started over here, and, of course, your honor knows the rest. Of course, I'm sorry. It's all true, but it's said it's true."

"Six dollars or three days," said Judge Smith with a sympathetic sigh. And the hearts of the attaches at the City Prison were made glad, because the windows have needed a cleaning superintendent for some days. Mose has been arrested 334 times for being drunk.
